

Extension - Non-Binding Solicitation of Interest

Tri-State Energy Corridor

Southern Star announced a Non-Binding Solicitation of Interest that started **Monday October 13, 2025 9:00am CCT** and is now extended to **Friday December 5, 2025 4:00pm CCT** for a possible pipeline expansion project designed to transport natural gas across the Northeast Oklahoma, Southeast Kansas, and Southwest Missouri corridor. This initiative aims to support high-growth economic development opportunities such as data centers, power generation facilities, and meet the rising energy demands of domestic industrial and manufacturing sectors.

This solicitation gives potential participants the opportunity to provide input on gas supply and routing options. As interest is identified, the path may change to optimize economics, and Southern Star will evaluate laterals based upon requests.

Participation Requirements

Interested parties must execute a Confidentiality Agreement (CA) to receive more details. Please click link [Tri-State Energy Corridor - Non-Binding Solicitation of Interest CA Request](#). Upon receipt of a completed Confidentiality Agreement, Southern Star will provide the interested party with a packet detailing the Tri-State Energy Corridor along with the Non-Binding Solicitation of Interest Form. The Form should be submitted by email to sscopenseasonbids@southernstar.com no later than **Friday December 5, 2025 4:00pm CCT**.

Further information

Please direct any questions or requests you may have regarding this solicitation of interest.

About Southern Star

Southern Star is a leading transporter of natural gas across America's heartland, with approximately 5,800 miles of natural gas transmission pipeline in the Midwest and MidContinent regions of the United States. Our reputation for clean, safe, and reliable service has remained constant since our formation in 1904.
